

Assessment and policy options (Investing in Youth: Latvia)

The economic crisis struck young people in Latvia heavily: Employment among 15-29 year-olds collapsed from about 50% in 2007 to 40% in 2010. The unemployment rate more than tripled from 9.7% in 2007 to 28.3% in 2010, and among OECD countries, only Spain had a higher youth unemployment rate in that year.
