

Investment in the Canadian food and agriculture system (Innovation, Agricultural Productivity and Sustainability in Canada)

This chapter presents an overview of Canadian regulations governing entrepreneurship, access to natural resources and products and processes and discusses the extent to which they affect the adoption of innovative practices and the introduction of new products in the country. It also discusses Canadian policies related to trade, investment, finance and taxation and their impact on the capacity of farms and agri-food firms to invest and take advantage of market opportunities.
