

Overview of countries' open government initiatives (The Call for Innovative and Open Government: An Overview of Country Initiatives)

The purpose of this publication is to present an overview of recent reform initiatives and policy packages across a broad set of OECD member and non-member countries. The information is based on profiles provided by countries for the meeting of the OECD Public Governance Committee at ministerial level held in Venice in November 2010. The goal was to facilitate a high-level debate among ministers on the key challenges of public sector reform, drawing out common issues as well as divergences, and analysing the possible gaps in current policy packages.
