Industry seeking university

- Summary:
- PPP-allowance policy (for every euro private funding an extra 30% from Ministry)
- Novel approach: strategic research partnerships
  - Two examples: Chemelot InSciTe, ARCNL
- Various public and private interests converge in strategic partnerships. Integrated assessment framework to allow well-considered stakeholders' decisions, e.g.:
  - University's societal role's; for which stakeholders? Government outlook on research and science system?
  - Geopolitical considerations – strategic value of knowledge and technology
