

Inclusive Innovation Policies: By Implementation Challenge

Inclusive innovation policies, in focusing on disadvantaged groups (social inclusiveness) and laggard industries and regions (industrial and territorial inclusiveness), need to address some **specific challenges that do not apply to the same extent to innovation policies more generally**.

Notably, they need to:

Other **general policy design prerequisites for inclusive innovation programmes**, similar to other innovation policies, include having an in-depth understanding of the actual needs of the target group before setting policy objectives, and articulating these objectives in a clear way. Institutional barriers and ensuring adequate evaluation of policy impacts also need addressing. More detail on those general principles are discussed in the OECD Innovation Strategy.
