

Investment in the Australian food and agriculture system (Innovation, Agricultural Productivity and Sustainability in Australia)

This chapter presents an overview of Australian regulations governing entrepreneurship, access to natural resources and products and processes and discusses the extent to which they affect the adoption of innovative practices and the introduction of new products in the country. It also discusses Australian policies related to trade, investment, finance and taxation and their impact on the capacity of farms and agri-food firms to invest and take advantage of market opportunities.
