

Main Trends in Science, Technology and Innovation Policy (OECD Science, Technology and Industry Outlook 2008)

This chapter presents the main trends in national science, technology and innovation policies, focusing in particular on policies and programmes introduced between 2006 and 2008. It discusses developments related to public-sector research, government support for business R&D and innovation, collaboration and networking among innovating organisations, globalisation of R&D and open innovation, human resources for S&T, and the evaluation of research and innovation policies.
