

Research excellence initiatives and host institutions (Promoting Research Excellence: New Approaches to Funding)

This chapter describes the characteristics of institutions hosting centres of excellence (CoEs) funded through research excellence initiatives (REIs) in ten OECD countries. The survey data are used to provide information on the funding of host institutions (HIs) and CoEs and on their staff. The chapter looks at hosts' funding strategies, the direct and indirect means of support to CoEs, the way tasks are managed, and the perceived effects of REIs.
