

## Self-employment and entrepreneurship by women (The Missing Entrepreneurs 2015: Policies for Self-employment and Entrepreneurship)

This chapter presents data on the self-employment and entrepreneurship activities undertaken by women in the European Union. It reports on the number of women involved in self-employment and the key characteristics of their activities. Some evidence is also presented on a lack of skills as a barrier to entrepreneurship. Data are presented at the European Union and Member State levels.
