

## Regional strategies for innovation-driven growth (OECD Reviews of Regional Innovation: Central and Southern Denmark 2012)

What strategies and actions are being taken by the Regions of Central and Southern Denmark to promote innovation-driven growth? This chapter reviews the regional business development strategies and associated policy mix, particularly in light of EU expectations for smart specialisation strategies. The prioritised industrial sectors for regional action are discussed in depth. Other bottlenecks for regional growth are highlighted. Finally, the state of policy intelligence, monitoring and evaluation to inform the development of these strategies and projects is addressed.
