Main Trends in Science, Technology and Innovation Policy (OECD Science, Technology and Industry Outlook 2010)

This chapter presents the main trends in national science, technology and innovation policies, with a particular focus on policies and programmes introduced between 2008 and 2010. It discusses developments relating to public-sector research, government support for business R&D and innovation, collaboration and networking among innovating organisations, globalisation of R&D and open innovation
